

ORGANIC AND REGENERATIVE INVESTMENT COOPERATIVE

The integrity, footprint and provenance of our food has never been more important.

<https://organicinvestmentcooperative.com.au/opportunities/orca-organic-produce/>

We are an **Australian** Organic Producers Cooperative

ORICoop connects organic producers, buyers and consumers with fully traceable, premium organic products direct from Australia. As a Producers Cooperative we support healthy & sustainable production, with a reduced footprint while improving the long term sustainability and resilience of farmers and food.

Healthy Nutrient Dense Food

Our Producers are leading organic and regenerative farmers producing diverse, healthy nutrient dense food

Environmental Stewardship

Food and land that regenerates the planet! Regenerative farming principles in symbiosis with nature & technology

Regenerating Community

Building resilience, capacity and diversity of producers and business in their profitability and sustainability

The 'ORCA' brand is developed by ORICoop as a **farmer-owned brand** that promotes organic & regenerative farming and produces healthier, nutrient dense food. With full supply chain transparency improved land stewardship practices that increases the **natural and social capital of food and agriculture for the better**

Building healthy soils | Improving biodiversity | Improving water quality | Improving air quality

Nutrient Dense | Climate resilient | Improving market access | Traceability |

Transparent | Business sustainability | Reducing food waste

ORICoop Principles

ORICoop is a true Producer Cooperative, with over 200 organic producer members across Australia. ORICoop reinvests into market and producer benefits that enhance and build more resilience across the organic & biodynamic food and farming sector.

** Some produce has a carbon footprint assessment and can be used to inset part of the supply chain via the Eco-Credit mechanism, with direct supply chain transparency.
